Pre-Owned Warranty

50/50 Engine and Drive Warranty details:

Most of our used boats come with a 50/50 warranty that will cover the engine and outdrive against major failure. The customer pays for ½ of the repair and we pay for the other half. This is only for major component failure and does not cover abuse, lack of proper maintenance, damage from impact with the lake bottom, etc.

Below are the coverages and highlights of our warranty.

- Boat is returned to PLM for inspection, upon determination by us that the damage is covered under the 50/50 warranty we will provide an estimate to you. We pay for ½ of the repair and you pay for the other ½
- Boat is required to be returned to us, no exceptions.
- Warranty is only for major component failure. It covers major failure of internal engine and drive components only. It does not cover tune ups, drive services, fuel issues, electrical problems, etc.
- With any used boat purchase, it is to be expected that minor issues may develop and you should understand this before purchasing.
